

THE FULL MONTY

Monteith Building Group Ltd.

Fall 2009

TAKING THE LEED®

Monteith project manager Matt Gilman and John Runza of Lakefield College celebrate at the opening of Cooper Residence.

Taking the lead towards a greener future, Monteith Building Group is proud to announce that they are fully committed to lessening their environmental impact on the planet by adopting sustainable green construction practices.

"Constructing to LEED® certified standards forces the construction team to better integrate the design and construction phases of a project," says Monteith project manager Matt Gilman. "This produces a better end product with fewer costly interruptions to the schedule."

The downtown office of Monteith Construction Corp. was the first LEED® Certified project in Wilmington, NC.

Cooper Residence, Lakefield College designed and constructed to the Gold LEED® standard.

Leeder Place will be the first LEED® Certified Emergency Family Shelter in Canada.

MONTEITH
CONSTRUCTION

Iroquois Falls

Family Health Team Clinic, Iroquois Falls

This two storey, 15,000 square foot clinic is now ready to improve the well-being of the northern community of Iroquois Falls. Consisting of exam rooms and an elevator, the new Family Health Team Clinic is a freestanding addition to the Anson General Hospital.

Castle Arms North Bay

Castle Arms, North Bay

Much needed affordable housing will soon be available for North Bay's elderly. Consisting of 55 units (including five barrier-free units for seniors with disabilities), this 5 storey, 38,400 square foot, adult lifestyle facility is conveniently located near public transit and shopping malls

Ambulance Communication Centre, North Bay

This new 6,000 square foot facility is a one storey, wood frame communication dispatch centre for North Bay and the surrounding area. Facilitating improved emergency response services, this building consists of the main dispatch centre, offices, and large computer and communication areas.

Midland Library

Marrying old with new, Midland's century old historical library is receiving a three storey addition and undergoing a complete interior renovation. While maintaining the classic appearance of the original facility, new special features will include a green roof, solar power and a three storey glass atrium.

Town Creek Elementary, North Carolina

The students at Town Creek Elementary in Brunswick County will be enjoying a colourful new school this year care of Monteith Construction Corp. With an increased enrolment due to a redistricting program, this exquisite facility was applauded by both students and parents on opening day.

Cottage Country Family Health Team, Gravenhurst

Improving the well-being of residents of the Muskoka area, this two storey, 28,000 square foot, \$6 million building will be a welcome addition to the existing health centre in Gravenhurst.

Library & Learning Centre Nipissing University & Canadore College, North Bay

The ground has now been broken on an essential addition to these two North Bay institutions of higher learning. This \$21 million, 55,000 square foot, concrete and steel academic facility will give both Nipissing University and Canadore College a competitive edge as the high-tech centre of Northern Ontario.
